ORIGINAL BMW MOTORRAD ACCESSORIES

High Performance Parts

High Performance Carbon Add-On Parts

High Performance parts lend an air of outstanding performance: refined, sporty, exclusive and at the same time strong. Every part is a masterpiece in itself. If it's perfection you want, you'll find it here. Add-on parts in carbon – the ultimate lightweight material – combine a sophisticated look and technical expertise.

Storage options

Vario panniers

The waterproof Vario panniers come with a patented adjusting mechanism. The volume can be reduced from a total of 68 l (29 l left, 39 l right) to 50 l (20 l left, 30 l right). This is particularly useful for city driving, since the width is reduced by 120 mm.

Inner bags

The handy inner bags feature a welded inner, making them particularly waterproof and making it easier to load and unload panniers and the topcase. Variable volumes can be achieved, just like on the pannier and topcase, thanks to all-round zip fasteners.

Vario topcase

The waterproof Vario topcase can be secured with the adapter plate either to the standard luggage grid or instead of the pillion passenger seat. The volume can be quickly and easily enlarged from 25 l to 35 l, just like on the Vario panniers.

Backrest pad for the topcase

Fitted to the Vario topcase, the backrest pad offers greater comfort for the pillion passenger.

Carrier

The solid carrier is screwed into place at three points. Also available as a factory fitted option.

Small tankbag, waterproof

Waterproof, with large map pocket. Offers a volume of 5 l for all the little things you need to have to hand quickly when on the road.

ORIGINAL BMW MOTORRAD ACCESSORIES

Design options

Telelever and fork bridge cover caps
The "dot on the i". The turned aluminium caps with their milled structure are superb examples of BMW's passion for detail.

Chrome-plated cylinder head covers
Highlights the sporty, sophisticated look of the.

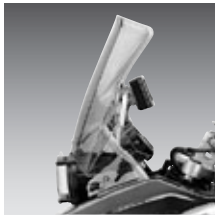

LED indicator lights
Their design and function truly does lead the way. Visually coordinated to match the R 1200 GS perfectly, the LED indicator lights shine with a reduced power consumption and significantly extended service life.

Sound components

Akrapovič sports silencer
High-end perfection: made entirely from titanium, featuring a lasered Akrapovič logo. Excellent sound makes every journey a sporty experience for the ears too. Weight saving compared to standard silencer around 2.5 kg.

Ergonomics and comfort options

Tinted windshield
Accentuates the overall sporty look of the R 1200 GS.

Low rider's seat
An 820 mm seat height makes mounting and handling easier.

Heated handlebar grips
Warm hands feel good. The heated handlebar grips, which have two settings, ensure that hands and fingers stay warm.

ORIGINAL BMW MOTORRAD ACCESSORIES

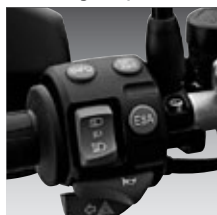

Navigation and communication components

BMW Motorrad Navigator IV

Where am I, where do I want to go and what's the quickest way to get there? Questions that come up time and time again, and can be answered very easily: with the BMW Motorrad Navigator IV. Easy to install, it's the ideal GPS navigation system.

Safety options

Enduro ASC (Automatic Stability Control)

This system, which can be disabled at any time, prevents the uncontrolled spinning of the rear wheel, thereby helping the rider on difficult terrain.

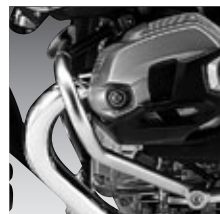

LED additional headlights

Turn night into day. The LED additional headlights are a bright and powerful addition to the R 1200 GS.

Headlight guard

The headlight guard effectively protects the headlight from damage off the road (not approved for road use).

Stainless steel engine protection bar

The engine protection bar, made from electropolished stainless steel, provides effective protection to the cylinder.

Aluminium cylinder head cover protection

On rough roads, protects against scratches and knocks, thereby avoiding possible breakage of the exposed parts of the horizontally-opposed engine.

Plastic cylinder head cover protection

Protects exposed parts of the horizontally-opposed engine in the event of minor falls.
