# ORIGINAL BMW MOTORRAD ACCESSORIES

## Storage options

### System panniers

Each pannier can hold 32 l and can accommodate a helmet. The storage space is easily accessible thanks to an easy-to-use locking mechanism. With the panniers' carefully thought-out design, the BMW R 1200 R remains sleek – and its handling stays easy and safe, even in heavy urban traffic.

### Inner bags

The handy inner bags make loading and unloading the panniers easy. Small parts can be easily stowed in the two additional compartments. With the shoulder strap and carrying handle, the inner bags are easy to carry around.

### Topcase small, 28 l

The waterproof topcase provides plenty of room for a helmet. It can be secured quickly and easily onto the luggage grid. Together with the optionally-available back rest, it also offers more comfort for the pillion passenger.

### Inner bag for the 28 l topcase

The topcase inner bag makes filling and emptying the topcase easier. With its practical carrying handle, the inner bag is quick to pick up and easy to transport.

### Large carrier incl. luggage grid

When you need just that little bit more: an additional luggage roll or even a topcase will still fit onto the luggage grid of the large carrier, so that you're always fully equipped for a grand tour.

### Waterproof tankbag

The tankbag matches the shape of the tank perfectly. The main compartment can be increased from 13 l to 21 l and is waterproof. The map pocket is also waterproof and can hold conventional road maps and DIN A4 formats.

### Universal tankbag

Lots of space with a clear view of the BMW Motorrad Navigator: the waterproof main compartment can be expanded from 10 l to 12 l, and the largely waterproof map pocket can also be used to store mobile phones, for example. The water-repellent outer pocket offers enough capacity for two PET bottles.

### Luggage roll 2

Sturdy, waterproof luggage roll with stable, removable base structure and a volume of 50 l. Diagonal zip fastener for convenient access and reversible outer pocket with one-sided reflective material.

### Soft bag 2, small

With a volume of 31 l and a capacity for a further 5 l, the soft bag offers plenty of additional storage space. It features a waterproof main compartment made from sturdy, easy-care material and can be secured to the luggage grid or the pillion seat with easy-to-operate securing locks.

# ORIGINAL BMW MOTORRAD ACCESSORIES

## Design options

### Chrome-plated cylinder head cover

The chrome-plated cylinder head cover adds a sophisticated touch to the heart of your R 1200 R.

## Sound components

### Akrapovič sports silencer

High-end perfection: made entirely from titanium, featuring a lasered Akrapovič logo. Excellent sound makes every journey a sporty experience for the ears too. Weight saving compared to standard silencer around 2.0 kg.

## Ergonomics and comfort options

### Sports windshield

The sports windshield offers above-average protection from the wind and weather, despite its small size. Also available in a tinted version.

### High windshield

The high windshield offers maximum touring comfort in wind and weather.

### Sports seat

The slimline silhouette of the sports seat, which can accommodate a passenger, gives the R 1200 R a more sporty, more dynamic look.

## Navigation and communication components

### BMW Motorrad Navigator IV

Where am I, where do I want to go and what's the quickest way to get there? Questions that come up time and time again, and can be answered very easily: with the BMW Motorrad Navigator IV. Easy to install, it's the ideal GPS navigation system.

# ORIGINAL BMW MOTORRAD ACCESSORIES

## Safety options

### Anti-theft alarm system

The system responds to changes in position and jolts with a clearly-audible signal and flashing hazard warning system. Can be conveniently operated by remote control. Also available as a factory fitted option.

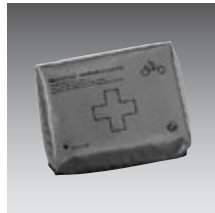

### Cylinder head cover protection in aluminium or plastic

If the worst happens, the optional cylinder head cover protection provides additional protection from damage. The aluminium version also beautifully accentuates the design and lines of the horizontally-opposed engine.

### Tamper-proof oil filler cap

Small but effective: milled in aluminium, the tamper-proof cap protects against unauthorised access.

### First aid kit

Complies with the DIN standard for motorcycle first aid kits. Space-saving and waterproof design.
